

Inks for Textiles and Garments

Kao Collins inks ensure optimum direct-to-fabric results. The various natural, synthetic, and blended materials require inks formulated for these different fabrics.

INK ADVANTAGES

Colourfast
Crockfast
Excellent printing detail
Non-hazardous
Fast fixing
Wide colour gamut
Eco-friendly

In addition to our standard inkjet inks, Kao creates custom formulations to meet specific printing requirements. We also offer private-label and contract manufacturing services.

AVAILABILITY

- Continuous supply
- No minimum order
- Single cartridges, bulk supply systems, and bulk packaging
- Black, spot colours and CMYK+

These inks are produced by Kao and have undergone extensive lab and production testing.

TEXTILE INKJET INKS

FIBRA dye-sublimation inks

The FIBRA platform is the Kao line of textile printing inks. The CMYK set of dye sublimation-based inks is designed for fabric printing on any polyester material. These inks can be used within a variety of piezo printheads and customized for specific printheads. [Get Textile Ink →](#)

- Deep penetration and saturation
- Colourfast
- Fast fixing
- Eco-friendly

LED-Curable Inks

We formulated our LED-curable inks for soft signage, wallpaper, flags, and canvas. We offer CMYK+ sets and spot colors. Low-heat curing won't compromise the substrate. [Get LED Curable Ink →](#)

- Rapid, low-heat curing
- Lightfast
- Crock-fast
- Chemical and solvent resistant
- Rapid curing
- Pigment dispersion
- Wide color gamut
- Stable jetting

Eco-friendly LUNAJET

Our LUNAJET ink is an eco-friendly water-based inkjet ink formulated for single-pass printing on textiles and garments.

[Get LUNAJET Ink →](#)

- Even wetting
- High pigmentation for vibrant colors
- Durable with no cracking or peeling

Supported Applications

Numerous industries are adopting eco-friendly inks for production.

Upholstery and home decor	Fashion apparel
Soft signage and flags	Accessories
Automotive seat covers
